

Multitool Accessories

Dremel has created a range of multi tool accessories to suit all your needs, including the EZ SpeedClic system to change your accessories quick, easy and keyless. To help you select the right accessories, Dremel has created a colour coding system: every colour represents a category of applications. No matter which materials you want to work with, Dremel has a solution for you.

DREMEL® EZ SpeedClic

Dremel, the inventor of the Multitool, now brings you EZ SpeedClic - an innovation that makes changing cut-off wheels quick and easy. Through a patented mandrel and wheel design, Dremel has found a way that enables you to change your accessory in 3 simple steps - Pull, Click, Twist - without using any tools.

Carving / Engraving / Routing

Dremel offers high quality carving, engraving and routing accessories for many different applications. Their sharpness and durability allow them to last a long time.

Grinding / Sharpening

The accessories in this category can deburr, smooth, grind and clean a variety of materials in any kind of job.

Cleaning / Polishing

Dremel cleaning and polishing accessories include brushes, felt accessories and rubber points to work on steel, aluminium, brass, silver, gold and plastics.

Cutting

Dremel provides two types of cutting accessories for any cutting job; Cut-off wheels and cutting bits. Cut-off wheels cut metal, wood and plastic along their edge. Cutting bits are used with the Dremel cutting guide and cut in any direction.

Sanding

Dremel sanding accessories include sanding drums, bands, discs, flapwheels and abrasive buffs to remove and smoothen material.

Multitool Accessories

Collets / Mandrels /
Miscellaneous

This category features the miscellaneous extras, like drill bits, collets, mandrels and a multi-chuck.

Cutting

5. Cut-Off Wheels

409 420 426 540

For slicing and cutting in metal, wood and plastic. Cut-off wheels make it easy to cut or slot bolts, screws, sheet metal, thin wood and plastic. Fiberglass reinforced cut-off wheels (456, 426, 426B) are for tough applications. The cut-off wheel cuts only along its edge. Do not attempt to sand or cut curved holes. Use Dremel cut-off wheels with mandrel 402.

Model	Quantity	Working Ø mm	Shank Ø mm	Ordernumber	EAN
409	36	24,0	3,2	2615040932	8710364007424
420	20	24,0	3,2	2615042032	8710364007431
426	5	32,0	3,2	2615042632	8710364007448
540	5	32,0	3,2	2615054032	8710364010516

6. Cutting/Shaping Wheel

542

The ultimate solution for wood. The special design of the cutting/shaping wheel 542 ensures that you can cut both hard and soft types of wood, cut grooves and shape wood. The carbide coating makes the wheel especially durable.

Model	Quantity	Working Ø mm	Shank Ø mm	Ordernumber	EAN
542	1	25,4	3,2	2615054265	8710364017119
